

# Find My Voice

- Singing for Mental Health and Well being aimed at Key Stage Two
  - Led by our expert team
- Flexible - whole classes, after school clubs, intervention groups

*"But what if it sounds bad?"*

*"I get scared when everyone looks at me and then I forgot my words."*

*"My pupils have become very withdrawn since Covid."*

Sound familiar?

Struggling with reluctant singers?  
Pupils too shy to speak up in class?

In a 'Find My Voice' session the Living Song team uses gentle techniques to nurture oracy and creativity through singing. This helps children to unlock their own voices and engage more fully in class.

*After 2 sessions with Living Song 'silent children' were sharing songs in the playground!*
